Hello Dilan:

I have attached the section of the draft SEIR that describes the mitigation measures that include Alameda Co. EHD review. We want to expedite this and get started with the review procedure. I have also attached a brief memo summarizing the historical contamination issues on the property along with a map and a copy of our report concerning our soil and soil vapor investigation. I will follow with a second email and attempt to attach the Engeo Phase I report. It's 22 megs, even optimized, so I'm not sure it will go thru.

Let's try and make phone contact to discuss moving forward with this.

Thanks,
Greg Stahl
