Hello Donna,
Hope all is well with you.

Attached is a revised Phase II report for the above-referenced property. It was brought to my attention that there was a conversion error in Table 2 of the original report which of course affected the discussion of results for the grab water samples. Please replace the one I had originally sent with the attached revised file.

Thank you so much for your patience and understanding. I know you are really busy.

Subject: 729 45th Ave, Oakland E-mail 2

Donna,
Attached is PART 2. Please confirm receipt. Thanks.

Hello Donna,

Thank you for returning my call about the above-referenced property. Per our discussion attached is a copy of the Phase I ESA and the limited Phase II investigation conducted at the property.

Please let me know your thoughts after you've reviewed both documents. My client would like to proceed to the next step as soon as possible. I had lined up a Phase III investigation but I felt it best to coordinate with you before proceeding so we can both be on the same page.

Thank you and have a good weekend!

P.S. E-mail 1 includes the text of the Phase I ESA (PART 1) and the Phase II report. E-mail 2 will include the attachments to the Phase I ESA (PART 2).
