Hi Delong,

Thank you for the update on the project status. With the hope that the additional time will allow a review of the case by the state, I have revised the submittal date to July 24, 2015. That should allow enough time for the review, get in the field to collect the data, and generate a report.

Regards,

Mark Detterman

Mark

Unfortunately I have to write you again ask for another extension of our work because state ust fund just told us they need another month to review our application (we submitted all the docs they needed so far. They just need more time to review)

I have copied this email to state UST fund officer Adriana Yanez too. You can contact her if you have any questions about our state fund process

So sorry bother you again. As this project cost so much money which we as a small business man just do not have and have to rely on the state fund money. Pls grant us another extension

Thank you very much for the understanding

Delong liu
