Dear Mr. Hamedi,

Figure 2 of the report will do nicely as the GEO_MAP report submittal. As for the EDF, please contact the analytical laboratory and request the lab report.

Thank you for your cooperation,

Keith Nowell

Good Afternoon Mr. Nowell,

We just received an auto email stating that the Soil Sampling beneath Removed UST report submitted Geotracker has been denied for the reasons of no geo map and EDF.

With all due respect, this project is not soil/water investigation but for remediation only. And, during the period of tank removal there was no Global ID; therefore, there is no EDF for the lab report, and the laboratory is not doing any more work, and we did only one time of survey for the geo map which we already had submitted; therefore, there isn't any geo map during the time of UST removal.

Sincerely,
ESTC
Frank Hamedi
