Spoke with Stuart Solomon regarding site. His proposed approach appears to make sense. Site doesn't appear terrible, but needs some work. Ask that he send a copy of the RAW from DTSC so I can review and see where this was headed. Also ask for him to submit a work plan for those same actions, so that we have his/their approach and SOPs. Bill Dugan will submit (Geotest). The RAW may have had a disclaimer about reliance only by DTSC / client (OUSD).
