Dan,

The toxicologist is making a professional opinion regarding the arsenic concentrations. The toxicologist does need to stamp the document. Please resubmit.

Note that I had indicated in my email of August 22, 2017 8:02 AM that the submitted document required a stamp.

Regards,
Keith Nowell

Hi Keith. The submitted document was a letter from APEX discussing naturally occurring arsenic in comparison to the arsenic reported in the backfill material sample. This document does not require a professional stamp. Are you still able to accept the document or do we need to resubmit?

Thank you,
