Keith - just a note to let you know the contractor encountered some discolored soil with odors under the sidewalk near Building 4. Stantec will collect samples of the material. I am on my way out there now to assist with next steps. My current recommendation is to sample for TPHg, TPHd, VOCs, PAHs, and metals on a 24-hr turnaround basis.

Please let me know if you have additional input at this stage.

thanks,

Tom
