

12/07/2016 Phone Log- RO3157 City Ventures, 2240 Filbert Street, Oakland, CA 94607

Duration: Approximately 10 minutes.

Received phone call from Andrew Warner, RP for City Ventures. He wanted to inform me the subject project may be transferred to the State- either DTSC or RB- attempting to enter into a CLRRRA agreement. Mr. Warner made it sound like the transfer was a done deal.

I asked what the status of the work plan reportedly implemented on September 26, 2016 as ACDEH had not seen any data. Mr. Warner indicated the WP was not implemented.

I inquired if the lead remedial action was complete. Mr. Warner said yes. I mentioned the remedial action report has not been submitted to ACDEH or GeoTracker.
