Responsible Party Identification Background

Alameda County Environmental Health (ACEH) names a "Responsible Party," as defined under 23 C.C.R Sec. 2720. Section 2720 defines a responsible party 4 ways. An RP can be:

1. "Any person who owns or operates an underground storage tank used for the storage of any hazardous substance."
2. "In the case of any underground storage tank no longer in use, any person who owned or operated the underground storage tank immediately before the discontinuation of its use."
3. "Any owner of property where an unauthorized release of a hazardous substance from an underground storage tank has occurred."
4. "Any person who had or has control over an underground storage tank at the time of or following an unauthorized release of a hazardous substance."

Existence of Unauthorized Release

A Phase I conducted in November 2014 found historical evidence of two oil underground storage tanks (USTs) at the former California Cotton Mills. In January 2015 three hydropunch grab-groundwater locations were sampled and concentrations up to 15,000 micrograms per liter (ug/L) Total Petroleum Hydrocarbons as diesel (TPH-d) and 23,000 ug/L TPH as oil (TPH-o). These data document an unauthorized release of petroleum hydrocarbons at the site.

Responsible Party Identification

The property is currently owned by East Bay Lofts LLC. East Bay Lofts LLC is a Responsible Party because it owns the property where an unauthorized release of a hazardous substance from an underground storage tank has occurred (Definition 3).
