**Subject:** Soil Excavation Notification - Fremont Plaza Shopping Center - State Street, Fremont

Mark

In accordance with the PES Work Plan for soil excavation and the subsequent ACEH conditional approval dated March 14, 2016, we wanted to notify you that remedial excavation activities at the Fremont Plaza Shopping Center property are going to begin next week. We anticipate that excavation will start on or about Wednesday (July 20<sup>th</sup>). PES is still coordinating field efforts with the excavation subcontractor, and we will confirm the start date early next week. Once the schedule has been locked in, we will send out another email notification.

If you have any questions or concerns, please feel free to call either Carl Michelsen or myself.
