**Subject:** RE: State Street Soil Reuse (RO3176)

Hi Denise,

ACDEH has not evaluated the excavated soil for reuse at another site including residential (but just received a voice mail from Alan Douglas about the soil). In the normal course of site actions, ACDEH would be concerned that the analytical was sufficient for landfill disposal purposes; normally determined by the landfill of choice. With regards to re-use at a potential residential development, provided the soil met or exceed DTSC clean fill testing guidance, including the warning on composite sampling, the re-use of the soil should be acceptable if the documented concentrations meet applicable regulatory goals.

**Subject:** State Street  
**Importance:** High

Hi Mark,

DeSilva is planning to remove spoils from the podium excavation and streets to another project. Is there anything you need prior to removing this soil; the other builder is anxious for the dirt.

I've copied our team and Engeo to keep everyone in the loop.

Thanks,

**Denise Cunningham**
