Subject: RE: Voluntary Cleanup Case RO0003181, Site Visit and Work Plan for GIG Facility, 8467 Patterson Pass Road, Livermore
Date: Wednesday, August 26, 2015 4:50:44 PM

Phillip: Please see the information below regarding the Consultant E&B has chosen to work with as to the Work Plan. Bob Booher and his Staff Representative, Jeff Monroe, were in E&B's offices today and met with Jennifer Brady and the other Team Members to review the process and timing of activities needed to timely complete a draft of the Work Plan. Jennifer Brady will be sending out status reports as appropriate as the project moves forward. I wanted to take this opportunity to share information regarding Booher Consulting as well as follow up on a few other items as follows:

- A. The two remaining tanks on the GIG Lease will be removed tomorrow
- B. **Jeff Monroe (mobile Ph 530-237-6628)** will be on the GIG Lease this Friday morning to review the site in preparation for drafting the Work Plan.
- C. As to the perimeter fencing discussed, it may be prudent to wait until additional testing has taken place before placing the temporary fencing on site. Would you be available Friday morning to discuss further with Jeff Monroe?
- D. Do you have any comments/concerns regarding the Access Agreement forwarded to you?
- E. Jennifer will follow up with a general status report to Alameda County early next week and copy you.
