Subject: RO0003196 Brush Street - Request for Extension

Hi Keith,

Consistent with the voicemails that I left you on Monday 3 July and Wednesday 5 July, I would like to request an extension for the Brush Street reports scheduled to be submitted on 5 July 2017 (monitoring well and soil vapor point installation) and 31 July 2017 (ISCO pilot test implementation). We are still awaiting the completion of surveying of the new monitoring points and injection points, which is scheduled for the week of 17 July 2017. In addition, we would like to complete the first monthly performance monitoring event for the ISCO pilot study, which is also scheduled for the week of 17 July 2017, for inclusion in the pilot study implementation report. Based on this, we would like to request submittal dates of 7 August 2017 for the well and soil vapor probe installation report and 31 August 2017 for the ISCO Pilot Test Implementation Report.

Please contact me with any questions and thank you for your consideration.

Thanks,

John Lucio
