Attachments: RO3198 Revised SGMP Final 031017_DRAFT_Tracked_Changes.pdf

Dilan

Attached is the revised text with track changes, new figure with vicinity use, tables with additional soil ESL for groundwater leaching as requested.

We took a lot of time to make sure each of your comments were addressed, it includes each of the items discussed and detailed in your email.

I confirmed the initial design of the vapor barriers included application to the bottom and sides of the shaft so that does not need to change based on the rising water levels. Water level did rise 2 feet since July.

Let me know if you have any comments otherwise we will update the final SMP to the FTP site and Geotracker on Monday.

Hi Gabe:

Thanks for the quick response. Please upload to Geotracker and the ftp site along with the Fact Sheet.

Dilan

Hi Peter:

It is not clear to me whether the Fact Sheet was ever distributed. If it was can you please provide certification that it was distributed. If it was not distributed then this needs to be done as soon as possible so as to not delay the start of construction.

Anne and Gabe can you please provide input on the Fact sheet distribution.

Thanks,

Dilan Roe, P.E.
