Subject: RE: 94th and International Remedial Action Completion Report

Hi David,

An extension is fine considering the project is progressing well. I've updated the due date on Geotracker until September 1 in order to provide a bit of cushion. If needed you can use this email to document the extension.

Subject: 94th and International Remedial Action Completion Report

Mark,

I am writing to follow-up on the voicemail that Nick Loizeaux left you just over a week ago regarding the Remedial Action Completion Report due date. As he discussed in the voicemail, we were having some delays in obtaining the disposal documentation which led to a delay in us completing the report. We just received this documentation and are finishing up the report now. Based on this delay, we expect to have the report finished and ready for submission early next week (Monday or Tuesday). Please let me know if you have any concerns with this deadline extension request.

Additionally, I wanted to inquire on how you would like us to submit the report. Would you prefer that we submit a "Draft" report for your review prior to submitting the final version to the ACEH FTP and Geotracker?

I appreciate your cooperation on this project.

Best,

David A. Grunat, P.G.
