Subject: Fuel Leak Case No. RO0003216, 1244 2nd Avenue, Oakland, California 94606

Dear Mr. Moore,

Per your request, Alameda County Department of Environmental Health (ACDEH) is providing this update regarding the status of your open case. ACDEH has received the Data Gap Assessment Report Addendum (Addendum) dated August 31, 2016, prepared by Pangea Environmental Services, Inc. on your behalf. Based on our initial review, the Addendum addresses the items discussed in our email correspondence dated August 30, 2016 with the exception of a water supply well survey. We understand that Pangea is still completing a water well survey and will be submitting to ACDEH for review. Assuming the results of the water well survey supports that the contaminant plume poses a low threat to human health and safety, ACDEH anticipates issuing case closure following the public notification period.
