Good Evening Yuval:

I received your voice message today and tried to call but was sent to a company directory voice message system and thus did not leave a message.

Alameda County has listed your site as eligible for closure on the State Water Resources Control Board GeoTracker website and is proceeding with the closure process. You will be receiving a letter this week outlining the steps involved in the closure process that must be completed prior to issuing the Remedial Action Completion Certificate. Please call me if you have any questions.
