---

Hi Steve,

I spoke to Dilan this morning and would like to update, inform and inquire on the below:

- 1) Invitation to Comment - Potential Case Closure - we are in the process of getting the Invitation to comment package out and hope to complete this in a few days. Note that due to the size of the project, I have a large mailing list (approximately 300 mailers) and as a result, that will take a few days. In addition, can you please send us the contacts for the City or County, or other agencies that are involved in this project, that you would like us to send this document to ( I need this asap).
- 
- 2) Review of Soil Import Results Report - we will be contacting you and H&A for a conference call in a few days to discuss the soil import results report.

If you have any other questions, please let me know.

Thanks,

**Kit Soo, PG**

**Subject:** AOC 6 & 7 Draft Letter & City Stockpile permit

Dilan,

Good to catch you by phone and provide you with the East Pleasanton project update.

Pursuant to our conversation, attached is a DRAFT letter to hopefully save time in your preparation of a letter

to submit to the County planning regarding the environmental status of the areas within AOC's 6 & 7.

We look forward to hearing from you, hopefully County's blessing of the proposed residential standard soil import materials to be placed under the City of Pleasanton stockpile permit ( permit & soils qualifications & test results provided by Voytek of HA under separate cover), on the permit and the letter.

Best regards,

**Steven M. Dunn**
